Mobile, fully active Bluetooth® stereo loudspeaker

- Very compact wireless stereo loudspeaker with built-in rechargeable battery for uncomplicated music enjoyment wherever you are
- Cross-platform Bluetooth® technology makes the loudspeaker compatible with current smartphones and tablets by all manufacturers
- Thanks to its built-in microphone, it may also be used as a wireless hands-free speakerphone for telephones equipped with Bluetooth®
- Built-in battery, rechargeable via USB from
  - any computer with a USB port or
  - a mains adapter with micro USB port and at least 1000 mA output current (included with many smartphones and tablets)
- Very long battery life of up to 18 hours at medium volume
- Large wireless range of up to 10 metres
- Bluetooth® Standard 2.1
- LED indicators for battery status and Bluetooth® pairing

- Second USB port, which may be used to charge smartphones and other devices, max. 1000 mA output current
- Analogue stereo input (3.5 mm plug) for connecting any other audio source (CD players, MP3 players, etc.)
- USB charging cable and 3.5 mm stereo plug cable included
- High-quality carrier bag for safe transport

#### Technology

- Two powerful 40 mm long-throw full-range loudspeakers and hands-free microphone on the front
- Passive 40 x 70 mm bass radiator on the rear for enhanced bass
- Volume control on and call-taking directly from the loudspeaker
- Integrated digital stereo amplifier with intelligent DSP control for optimum system-capacity utilisation
- Specially coated, attractive case in three colours
